Subject: Massachusetts Brands
Importance: High

John,

We need from you the number of stores each TSM has visited to purchase the brands within each county. This should include all stores visited (if packs were or were not purchased) by county in order to buy the number of packs required by MA. This information could be helpful in assisting legal on making a decision about how many stores we need to visit in order to comply. Any questions please give me a call. Send this information to myself and to Virginia Murphy in the New York Office and we in return could get back with her. Thanks for all your help!!
